**IBEW LOCAL 292 HIRING HALL RULE CHANGE**  
May 15, 2009

The technology in the electrical industry is constantly changing. In response to those changes new training will be required to meet the needs of our customers. In response to those needs the Local 292 Hiring Hall will add two new special skills for referrals. These are Solar Installer and Wind Turbine Parts I, II and III.

The Solar Installer Training is given at the Local 292 Charles "Chuck" Lindberg Training Center in St. Michael, MN.

The Wind Turbine Parts I, II and III training is given at the Local 343 Training Center in Rochester, MN. Wind Turbine Parts II and III training will be given at the Local 110 and Local 292 Training Centers in the future.

The list of special skills now includes Certified Welder, High Voltage Splicer, Instrument Tech I and II, Code of Excellence, General Foreman, Foreman (with supervision training), Solar Installer, and Wind Turbine Parts I, II and III.

When you complete your training, you must provide a copy of the certification to the Hiring Hall before being dispatched. This new rule change is effective June 1, 2009.

In Brotherhood,

Brian Peterson  
Hiring Hall Administrator
